

Commodore's Report—Mike Haistings

With June arriving we are beginning to experience some wonderful weather as we enter into our peak boating season here in the Great Pacific Northwest. We are looking forward to the two PSYC cruises planned for this month. The first one is June 8th - 10th to our outstation at Hat Island for the Third (I think) annual golf cruise, and I understand we have a lot of members signed up to attend this cruise (I am sure we have a few ringers too). June 22nd - 24th is our cruise to Gig Harbor, I am sure we will have flat water & wonderful weather. We just returned from the Memorial Day cruise to Anacortes which was May 26th - 28th, we had great weather & you can't beat the location either. The cruise captains were **Gary & Donna Sheneman** along with Lisa & myself. The Sheneman's sure take this cruise captains stuff seriously, they even went out and bought a new boat to host this cruise. I am sure they are not setting the standard, but it is really taking the cruise captains to a new level (pressure is on). The weekend went well we had 12 boats and just over 30 people. We did a little wine tasting on Saturday at Compass Point wines, and then we had an Italian din-

ner on the docks with wines that people purchased to share. Sunday morning breakfast featured **Lisa and Donna's** special waffles with strawberries and all the fixings', they were great just ask **Andy Cook** he had four waffles piled high with strawberries and wipe cream. Sunday afternoon we hosted about 35 for our family bowling event at the local bowling alley where we witnessed some "interesting" techniques and had pizza for lunch. I'm looking forward to seeing all you on the water at one of our June cruises.

Vice Commodore's Report - Gary Sheneman

The unofficial start of summer was ushered in with the Memorial Day cruise to Anacortes. We had a wonderful time on our new boat (yep, we stepped up to a 38 Meridian) and really enjoyed everyone's company and some friendly competition at the bowling alley. Now that we are moving towards the peak cruising season I'll be focusing on routine maintenance of our clubhouse and overall facilities. There are a few items I hope to tackle before a fall work party so if you see anything that really needs attention let me know. While a few volunteers took care of some spring clean-up at Hat Island we do need to make an assessment of our floats and will be scheduling in some time to inspect the docks for any additional attention they may need.

It's time to enjoy the northwest and the Puget Sound. Save boating!

Rear Commodore's Report—Kevin Haistings

Greetings. How 'bout that it was 87 degrees yesterday? Hopefully that is a sign of great weather and good boating ahead this year (the gas dropping more than 10 cents a gallon at my local service station also leave me hopeful).

We had a great time on the Memorial Day cruise to Anacortes. The weather was dry and the water was calm. On the way home we stopped in at Oak Harbor to fuel up. While chatting with the fuel dock attendant I was surprised to find out that Oak Harbor was logging 40 knot winds on Sunday. We had some wind, but not anything close to that. I guess there is something to the "Sunny San Juan's" claim.

Last month I had a friend of mine from Washington State Fish and Wildlife stop by the meeting to discuss some of the new rules this year. I'm not going to try to pass on all the info (I don't want any of you quoting me if you get caught later on.....) the changes are interesting. The new rules are available in the free guide available where fishing licenses are sold. Or on the dept of fisheries website <https://fortress.wa.gov/dfw/erules/efishrules/index.jsp>. One thing I learned at the meeting is that I can pur-

chase my fishing and shellfish license online (gotta save the gas for the boat and it beats waiting in line on a Saturday morning). The web address is <https://fishhunt.dfw.wa.gov/wa/index.html>. I tried it and it was pretty easy to work through the pages to purchase my 2007 license. It even showed my 2006 purchase history so I could double check what I was doing.

For the June meeting I am working with U.S. Customs and Border Patrol to have an agent talk about crossing the border by Land, Sea and Air. It sounds like there are some changes that may make crossing a little easier if take some steps before you go, i.e. a Nexus pass. It sounds pretty positive as I write this article that we will have an agent. Of course, we are talking about civil service and their schedule and mission could change at the last minute.

That's all for now, see y'all on the water.
