

Commodore's Report – Garry Moore

We are enjoying unusually great weather for this time of year. I hope everyone is getting a chance to get out on the water and enjoy great boating. If you are in town over the Fourth you need to get to the Club for "Dock Saturday" to enjoy the festivities Paul and Trina have planned and of course the fireworks at Gasworks Park. The Club is the best spot on the Lake to see the show.

Hat Island:

There are still some small issues continuing back and forth, but we are pushing to get the agreement resolved soon. One issue that has come up is switching one of our current slips to Slip #9 due to silt building up at the entrance that is forcing the ferry to run over and into our current slip. We need to be sure that Slip 9 has enough width to accommodate our larger boats. A meeting is scheduled for Friday, June 26th to hash out the remaining issues.

Dock Expansion:

We thought we had tentative approval from all agencies for our dock extension, but DNR wants to

have additional staff review the application. We hope to have a final decision by the end of the month. The next steps are the completion of the plans for the building permit and the application to the City. The permit process is taking 3 to 4 months with all of the construction in the City. Regulations don't allow construction in the Lake until October. With the time required for the permitting process, financing and bidding, we are unlikely to be ready to start in October. Realistically we are looking at next fall to start construction.

RBAW:

The Coast Guard is proposing to replace traditional physical navigation aids such as buoys, beacons and lighthouses with an AIS-integrated electronic navigation display that will appear on electronic charts. The system is called AIS ATON. This will have a serious impact on recreational boaters who don't have access to electronic charts or if their charts are not current or if they don't have access to an AIS signal. If you have concerns you can contact the Coast Guard at their web site at <http://www.navcen.uscg.gov> and go to the Contact Us Tab or call (703) 313-5900.

Vice Commodore's Report – Tim Dies

There will be no Vice Commodore's Report this month. Tim and BryAnna thank you for the kind thoughts and words during his illness and hope you have a fantastic boating summer.

Rear Commodore's Report – Paul Smith

Hello members,

As I am writing this, I can't help but to be astonished that we've had such wonderful weather this early in the season. We kicked off June with the first Dock Friday, on the upper deck at PSYC. The view from our deck is truly one of the hidden treasures of our facility.

On June 13th, **Kevin Haistings, Rich Tregmaglio** and company provided club members with a really unique experience by hosting a BBQ smoking demonstration, followed by the Cigar and Rye social. Although I was not present, Kevin's description of the Huli-Huli Chicken preparation left me regretting my absence.

If you were present at our last general meeting, you would have been treated to a fabulous meal courtesy of **Donna & Gary Sheneman and Lisa & Mike Haistings**. We were also treated to a

presentation by local historian, **Virginia Curulla**. For those who were not aware, Virginia's family ("Latta") operated several marine related businesses out of our building prior to the sale to the Puget Sound Outboard Club in 1959. A special thanks to **Pat Hansen** for her efforts in coordinating Virginia's presentation.

Next up is the July 4th Fireworks Extravaganza. As always, we will have a dock party from 5:30p-7:30p, so please let **Trina** or I know if you plan to attend. Additionally please let **Pat Hansen** know if you are in need of moorage accommodations.

On a side note, I was recently reminded of the importance of RSVP and cancellation etiquette. Please do all you can to RSVP early, but if your plans change, please reach out to your Cruise Captain or Social Host as a general courtesy.

Fleet Captain's Report – Robert Murphy

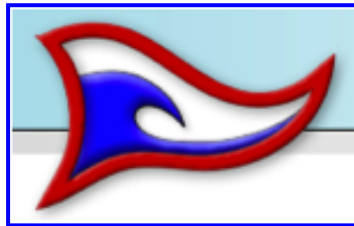

Well it is turning out to be one of the best summers on record with such great weather. Right now in preparation for the 4th of July weekend the extended forecast for the next week has a low of 85! This weekend was the Vacation Connection Cruise to Anacortes. The Hastings, Shenemans and Moores provided a great cruise for everyone at Anacortes. A number of boats headed north and some south from there.

For the 4th we have PSYC members congregating at both Roche Harbor and

Poulsbo as well as at our own beautiful dock! It's great to see folks getting together for the holiday weekend. We also have Dock Friday here at the club on the 3rd as well.

Upcoming next we have our Andrews Bay Cruise on August 21st – 23rd which is always popular. Please let Chris Kullmann know if you will be coming.

Safe boating everyone and enjoy our phenomenal summer!
